

Screenzor

Accessibility Statement

Last revised: July 24, 2026

We want screenzor.com and the Screenzor extension to be usable by everyone, including people with disabilities.

Standards We Target

We aim to conform to the Web Content Accessibility Guidelines (WCAG) 2.1 Level AA, consistent with the expectations of the EU's European Accessibility Act (in force since 28 June 2025) and widely referenced under US ADA Title III and similar laws elsewhere.

Known Limitations

We are aware of accessibility issues that still need to be fixed, including missing image alt text on some pages, identified in an internal site audit. We are actively working through these.

Feedback

If you encounter an accessibility barrier using Screenzor, contact legal@screenzor.com. We aim to respond within 5 business days.

Changes to This Statement

See the notice at the end of this document for how we handle changes to this statement.

Last revised: July 24, 2026

We may update this document from time to time. If we make material changes, we will notify you by email and/or a notice on the Screenzor website before the change takes effect. Minor changes will only update the date above.
